

Broker for Insurance Services

RFP Questions and Answers

Week of 12/17/18

#1 Question:

Will the broker services include coverage of workers compensation and employer health benefit packages?

Answer:

Yes, it would be the corporations intent that the broker would handle and oversee all insurance coverage's required of the non- profit, including workers compensation and health benefits, understanding of course that the health benefit packages must follow open enrollment timelines, or transfer to the new broker if allowed.
