Rapid Response Services

Rapid Response is a proactive business-focused and flexible strategy designed to respond to layoffs and closings by coordinating services to provide immediate aid to businesses and their affected workers. The Business Services team is working to respond to the needs of our businesses and employees during the current pandemic.

Please join us for rapid response orientation where we have gathered representatives from various organizations to bring you information about resources and services available to support you during these uncertain times.

Join us every Wednesday at 10:00 am
