

One Stop Operator 2021-23 RFP

Questions and Answers

January 8, 2021

Question: In the sample contract, provision 12 Insurance. Can you clarify if these insurance amounts are the same for each of the 5 counties participating in the solicitation? If different, can those be provided by County?

- Answer: These requirements are consistent across all counties – however, since the contract will be specifically with our organization and not separately with each County, these requirements are those necessary for contracting with us. If the selected vendor enters into separate agreements for additional services, then the County in question would need to provide their specific insurance information.
